

Dear FCC,

I am writing about the new “significantly viewed” channel rules. I currently live in the Dorsey community of Itawamba County. Until recently my cable provider, Comcast, carried 3 television stations from Memphis; WREG, WMC, and WPTY. WREG and WPTY were removed even though many customers did not want them removed.

I would like to request that WREG, WMC, WHBQ, and WPTY be considered as “significantly viewed” channels in my area so that I can subscribe to them via DirecTV.

Respectfully,
Matthew Rutland
